	07/05/11 09:39 CST		0	Source: Public
A tree was blown down along U.S. Highway 167.				
<b>MONTGOMERY COUNTY --- 0.2 W WASHITA [34.65, -93.53]</b>				
	07/05/11 13:22 CST		20K	Thunderstorm Wind (EG 52 kt)
	07/05/11 13:22 CST		0	Source: Law Enforcement
Trees and power lines were blown down between Mount Ida and Story.				
<b>A weakening, nearly stationary front helped to trigger thunderstorms in northern Arkansas during the morning hours of July 4th and 5th. As outflow boundaries (cool air flowing out of the thunderstorms, forming a boundary much like a mini-cold front) moved out away from these storms, new storms developed during the afternoon and early evening farther south. A few severe thunderstorms and locally heavy rain occurred.</b>				
<b>BOONE COUNTY --- 1.3 NW LEAD HILL [36.44, -92.91]</b>				
	07/07/11 15:42 CST		0	Hail (1.00 in)
	07/07/11 15:46 CST		0	Source: Public
Hail the size of quarters fell for several minutes on Arkansas 7 south of Diamond City.				
<b>MARION COUNTY --- 1.0 W PEEL [36.43, -92.79]</b>				

## Storm Data and Unusual Weather Phenomena - July 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	07/07/11 16:00 CST		0	Hail (1.50 in)
	07/07/11 16:00 CST		0	Source: Broadcast Media
<hr/>				
MARION COUNTY --- 3.0 NW PEEL [36.46, -92.81]				
	07/07/11 16:00 CST		0	Hail (1.00 in)
	07/07/11 16:00 CST		0	Source: Broadcast Media
<hr/>				
MARION COUNTY --- 3.0 W BULL SHOALS [36.38, -92.63]				
	07/07/11 16:25 CST		0	Hail (1.00 in)
	07/07/11 16:25 CST		0	Source: Trained Spotter
<hr/>				
MARION COUNTY --- FLIPPIN [36.27, -92.60]				
	07/07/11 16:56 CST		0	Hail (1.25 in)
	07/07/11 16:56 CST		0	Source: Broadcast Media
<hr/>				
FULTON COUNTY --- 2.7 ENE FRYATT [36.48, -91.60]				
	07/07/11 20:50 CST		2K	Thunderstorm Wind (EG 52 kt)
	07/07/11 20:50 CST		0	Source: Law Enforcement
<hr/>				
A large tree was blown down on Arkansas 9.				
<hr/>				
A cold front eased into Arkansas on the 7th, triggering thunderstorms, especially in the north. A few of the storms were severe.				
<hr/>				
WOODRUFF COUNTY --- PATTERSON [35.25, -91.23], 0.5 WSW CAVELL [35.25, -91.26], 0.8 WSW RIVERSIDE [35.28, -91.24], 0.3 SSW RIVERSIDE [35.28, -91.23]				
	07/12/11 07:00 CST		2K	Flood (due to Heavy Rain)
	07/17/11 00:00 CST		10K	Source: River/Stream Gage
<hr/>				
Heavy rainfall from summertime thunderstorms caused the Cache River at Patterson to rise above flood stage during toward the middle of July. Most of the flooding was minor with the river remaining less than a foot above flood stage.				
<hr/>				
(AR-Z042) GARLAND				
	07/12/11 11:00 CST		0	Wildfire
	07/12/11 20:00 CST		0	
<hr/>				
Continuing hot, dry weather made conditions favorable for wildfires during the first part of July.				
<hr/>				
CALHOUN COUNTY --- 2.1 SSW UNCO [33.45, -92.43]				
	07/12/11 15:55 CST		15K	Thunderstorm Wind (EG 52 kt)
	07/12/11 15:55 CST		0	Source: Emergency Manager
<hr/>				
The over-roof of a mobile home was blown off. Trees were blown down in the area.				
<hr/>				
CALHOUN COUNTY --- 2.6 W UNCO [33.47, -92.47]				
	07/12/11 15:55 CST		7K	Thunderstorm Wind (EG 52 kt)
	07/12/11 15:55 CST		0	Source: Law Enforcement
<hr/>				
Trees and power lines were blown down along Calhoun County Road 26.				
<hr/>				
Thunderstorms developed in southeast Arkansas on the afternoon and early evening of the 12th. These storms were along the southern edge of a high pressure ridge and were triggered by heat and humidity.				
<hr/>				
BOONE COUNTY --- 0.7 SE HARRISON [36.22, -93.11], 1.6 ESE HARRISON [36.22, -93.10]				
	07/12/11 23:30 CST		80K	Thunderstorm Wind (EG 52 kt)
	07/12/11 23:30 CST		0	Source: Law Enforcement
<hr/>				
Trees and power lines were blown down on Pine St. and Union Rd., damaging several vehicles. Part of a metal roof was blown off.				
<hr/>				
Thunderstorms which had formed in Oklahoma during the afternoon of the 12th moved across northwest Arkansas late on the evening of the 12th and during the wee hours of the 13th.				

## Storm Data and Unusual Weather Phenomena - July 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Thunderstorm winds knocked down a tree onto County Road 20, blocking the road.				
A strong ridge of high pressure, which had covered Arkansas, shifted slightly to the west. This allowed more instability to develop in the hot, humid atmosphere over Arkansas. Scattered thunderstorms occurred, and isolated storms became severe from the 23rd through the 25th.

	07/31/11 23:59 CST		0	
A continued lack of rain and above-normal temperatures caused worsening drought conditions in Arkansas late in July. Extreme drought expanded in parts of extreme southern Arkansas, severe drought developed in part of western Arkansas, and moderate drought developed in most other parts of the state.

	07/31/11 17:30 CST		0.25M	Thunderstorm Wind (EG 65 kt)
	07/31/11 17:30 CST		0	Source: NWS Storm Survey

Near the junction of U.S. 79/287 and Arkansas 7, much of the roof of an old motel was blown off, as was part of the back wall of the building. Although the motel was unoccupied, many of the rooms were being used to store furnishings. The roofing material from the motel was blown behind the building, covering Dunning St. with debris, and knocking down power poles and transformers. Some of the debris blew across the street, damaging a vacant house. An occupied motel had some shingles removed from its roof. A number of trees were blown down in the area, including Carnes Park. Trees landed on residences on Mt. Holly Rd., Cherry St., and Cuba Cir. At the sheriff's office, a two-car carport was picked up and thrown, damaging an antique patrol car and some fences. At Camden Fairview High School, the roof was rolled up on an outbuilding.

**A large ridge of high pressure that had been over Arkansas shifted slightly to the east. This allowed somewhat more instability over the state, and when combined with unusually hot temperatures and plenty of humidity, led to the development of a few severe storms.**

*Debris from the roof of an old motel in Camden (Ouachita County) was scattered across the street behind the motel on July 31, 2011.

Very dry weather and a heat wave made conditions very favorable for wildfires in late July.
